... or eat it when it is still warm!

Live an unique experience: Don't cake a dough! Cook your own bread that you will carry out

With your family or friends or on your own, Our guides will explain to you the life of last mills, but also all the Tasks of the Bread, from cereals to the Baker!

Visit the 6 blades Windmill !

Between Tradition and modernity

Its concrete tower and its bright red cladding are visible since 2005. The windmill attracts curiosity for everybody driving to the Pyrénées!

Windmills in Lauragais

Since the 12th century, the Lauragais be filled with more than 500 windmills, thanks to unpredictable winds like Cers or Autan.

Discover the Windmills Road! *

Avignonet-Lauragais

Aurin

Cambiac

Caragoudes

Loubens-Lauragais

Montgeard

Montbrun-Lauragais...

In working order - visits are possible

* Situated in private property, visible from the road

Its Mechanism

The different parts of the mechanism (wings, break wheel, grain hoppers...) were rebuilt for this windmill thanks to original and different varieties of wood.

The millstones (one in granite, the other in flint) come from the old windmill of Montgeard.

Windmill of our mind

Originally set in Nailloux's town center, the old windmill was already particular, due to its 6 wings.

Sadly, it was totally destroyed in the XXth century. We can see on this picture the miller in front of his so strange windmill.
